

## Kenya Visa fees reduction in full swing

After a short delay, the Kenya Visa reduction is now in full force. Travellers to Kenya will obtain a 50% reduction and under 16's will go free when obtaining a visa before travel through the High Commission or when landing in Kenya. This 50% reduction and under 16 cut came into operation on 6<sup>th</sup> April 2009, only a few days later than expected, and will be valid until the end of 2010.

The move is to benefit visitors to Kenya in the long term and make the country even more appealing for the growing family market. The visa cost has been reduced from \$50 to \$25 and no cost for children under 16, so a family of four (with two children under 16) will now only have to pay \$50 for the two adults, offering a massive saving of \$150.
